COURSE OUTCOMES

This mentoring program will give you the practical skills and confidence to plan, manage, and deliver building projects successfully. You'll learn how to read and apply plans, prepare accurate quotes, meet contractual obligations, and implement strategies for efficiency, compliance, and sustainability. With hands-on support and ready-to-use templates, you'll be equipped to bridge the gap between theory and real-world building practice.

- Plan, manage, and monitor building and construction projects using industry best practices.
- Read, interpret, and apply building plans, drawings, and specifications in real project contexts.
- Implement project-specific procedures to ensure efficiency, safety, and compliance on-site.
- Apply strategies to minimise waste, reduce costs, and promote sustainable construction practices.
- Estimate labour and material costs and prepare accurate quotes for building projects.
- Understand and apply contractual obligations, documentation, and compliance requirements.
- Use professional templates, checklists, and reporting tools to support project administration.
- Demonstrate improved confidence and decision-making when leading and delivering building projects.
