

# DOMESTIC BUILDING CONTRACT

## WORKSHOP

This workshop is aimed at providing a deeper understanding of building contracts utilising a specific contract as an example. The contract will be explained in full, describing each schedule and clause.

Through a mix of theory and templates, including:

- Fixed cost vs variable cost
- The advantages and disadvantages of the contract structure
- The contract and obligations
- Legal obligations of the contract

You will receive:

- Contract sample template
- Calculation Template
- Up to date Legislations and Acts
- Relevant templates and more...

## YOUR TRAINER

Peter Pascuzzi has been in the Architectural Design & Construction business for over 30 years.

He is a Registered Building Practitioner who has a broad understanding of building regulations and legislations in both domestic and commercial Design & Build.
